

TUG Members and Friends:

On January 18, 2012 approximately 50 attendees participated in our regularly scheduled TUG Meeting, making this one of our best attended events to date. Presentation topics ranged from Business Aviation Operations in the North Atlantic to a proposal for Global Entry at Teterboro to a CBP/Agriculture update, as well as traditional segments addressing Teterboro Tower topics and Airport Operations (see agenda below). Teterboro Tower Manager Gary Palm reemphasized the importance of accurate departure procedure awareness and execution, whether flying the Dalton 19, RUUDY 4 or Teterboro 8. Discussions were lively and informative, and we've taken the liberty of attaching the actual PowerPoint presentations to this email. We are grateful to our presenters and participants, and wish to extend special thanks to Don Fazio of BaseOps International for co-sponsoring our luncheon. Our next meeting will take place on Wednesday, March 21, 2012 in the Port Authority Conference Room at 90 Moonachie Ave in Teterboro, and will focus on RNAV/RNP operations and procedures. We'll send out the full agenda approximately two weeks before the meeting.

Thank you,

Dave Belastock, Geoff Couture, Lisa Sasse, Pete Elmore, Gary Charlton, Dan Cooke, Keith Yaddaw, Bill Thomas, Bill Mack and Joe Ritorto
